

Shopify Integration Details

Fill out this form and return to your TrueCommerce representative. The form fields below are editable if you are using a viewer that allows you to save the PDF.

Define Scope

Which of the following tasks do you intend to have configured with this integration? Select all that apply.

- Order Sync
- Update Fulfillment Information
- Sync Inventory Quantities

Shopify Connection

To establish your connection, do one of the following:

Option 1: API Key

Click [here](#) for steps to add TrueCommerce as an application in Shopify. Once the private app is created, provide us with the following information:

Store URL	
API Key	
Password	
Shared Secret	

Option 2: Login Credentials

Provide us with admin credentials to access your store and we can create the private app for you:

Store URL	
Email	
Password	

Location Names

Provide us with one or more locations for your store.
