

eBay Questionnaire

Please fill out this form and return it to your TrueCommerce representative. The form fields below are editable if you are using a viewer that allows you to save the PDF.

Our integration requires a one-time login to the admin account of the primary eBay account holder. Please either provide the username and password for the primary account holder (our team will delete our record of this sensitive information immediately after the connection is established). We may also correlate a screen share session to give control of our machine to the primary account holder and walk them through the lightweight process of allowing the connection.

Username	
Password	

Please check this box if you are using eBay Motors.

Connection Requirements

Which of the following will we be enabling for your marketplace?

Orders	
Shipments	
Inventory
